## CCRH SCHOLARSHIP

Dr. S. P. Mary Adharshna and Dr. Avanthi M, postgraduate scholars at Vinayaka Mission's Homeopathic Medical College & Hospital, Tamil Nadu, have been honored with the prestigious CCRH Scholarship for "Quality MD Dissertation in Homoeopathy" for the academic year 2024–2025. Their exceptional research in Homoeopathic Pharmacy has earned significant recognition, with "A Comparative Study of the Inhibitory Effects of Swietenia Macrophylla and Syzygium Jambolanum on Hydrolyzing Enzymes," guided by Prof. Dr. K. Rajamanickam, securing a cash prize of Rs. 35,000/-, while "Spectroscopic Changes in the Quality of Homoeopathic Dilutions Due to External Stimuli," also under his mentorship, was similarly awarded Rs. 35,000/- respectively. These distinguished achievements were officially presented during the World Homoeopathy Day Symposium at the Mahatma Mandir Convention and Exhibition Centre, Gandhinagar, Gujarat, on April 10–11, 2025, recognizing their invaluable contributions to advancing homoeopathic science.

## PHARMANECIA 4.E 2025: HONORING BREAKTHROUGHS IN PHARMACOLOGICAL RESEARCH

The Pharmanecia 4.E International Research Conference on Recent Advances in Artificial Intelligence and Machine Learning-Driven Drug Discovery, organized by Operant Pharmacy Federation, was held at JSS College of Pharmacy, Ooty, on March 7–8, 2025. The conference featured groundbreaking research contributions from distinguished scholars, including:

Dr. Revathi Ravikumar (PG -Department of Psychiatry) "Antipsychotic Potential of Bacopa Monnieri Q and 1X in Ketamine-Induced Schizophrenia Models: A Preclinical Behavioral Study," guided by Prof. Dr. K. S. Lathithaa, HOD, Department of Psychiatry, explored the neurobehavioral effects of Bacopa Monnieri, demonstrating its potential as an antipsychotic agent in schizophrenia models. She was the **Winner in the P.G Level Paper Presentation**

Ms. Anumitha K, (Final BHMS) under the esteemed mentorship of Dr. Venkatesan Hariram, Head of the Department of Medicine, presented her research titled "Evaluation of Antioxidant and Xanthine Oxidase Inhibitory Activities of Formicum Acidum 6CH & 30CH in the Management of Hyperuricemia," showcasing its significance in homeopathic interventions. Her exceptional contribution earned **first place in the U.G. Level Paper Presentation**.

Dr. Ruthikaa V (PG -Department of Organon of Medicine) "Phytochemical Characterization, FTIR, and GC-MS Analysis of Bauhinia variegata Flower Ethanolic Extract and Its Cytotoxic and Antioxidant Effects on the SW579 Thyroid Cancer Cell Line" examined the phytochemical profile of Bauhinia variegata and its therapeutic impact on thyroid cancer cell viability, highlighting its antioxidant potential.

Dr. Prasheda T (PG -Department of Pediatrics) "Determining the Biodynamic Action of Sulphur 6C, 30C, 200C in the Root Development of Spinacia oleracea Using a Deep Water Culture Hydroponic System with Seaweed Solution" investigated the biodynamic effects of Sulphur dilutions on plant growth, providing insights into its potential applications in agricultural and environmental sciences.

Dr. Keerthi Vasan (PG -Department of Psychiatry) "A Prospective Review on the Anxiolytic Potential of Valeriana Officinalis Q and 6CH: Insights for Future Experimental Validation" reviewed the anxiolytic effects of Valeriana Officinalis in homeopathy, offering perspectives on its future preclinical validation for anxiety-related disorders.

Dr. Sakthi Silvan (PG -Department of Psychiatry) "Preclinical Evaluation of Withania Somnifera on Obsessive-Compulsive Behavior: Insights into Neurobiological Mechanisms" examined Withania Somnifera's role in modulating obsessive-compulsive behavior, shedding light on its neurobiological mechanisms and therapeutic applications.

Dr. Isai Arasi C (PG -Department of Organon of Medicine) "Phytochemical Characterization and Bioactivity Evaluation of Couroupita Guianensis Flower Ethanolic Extract on SK-UT-1 Cell Line: Insights from FTIR, GC-MS, Antioxidant, and Cytotoxicity Studies" characterized the bioactive compounds in Couroupita Guianensis and assessed its cytotoxicity on SK-UT-1 cell lines, emphasizing its pharmacological significance.

Dr. Prem Kumar (PG -Department of Psychiatry) "Exploring Hypericum Perforatum's Antidepressant Potential: A Review of Evidence and a Framework for Preclinical Evaluation in Corticosterone-Induced Models" analyzed the antidepressant properties of Hypericum Perforatum, proposing a structured framework for preclinical validation in corticosterone-induced depression models.

Dr. K. M. Sudharsan (PG -Department of Materia Medica) "Therapeutic Prospects of Urtica Urens and Colocynthis in Pyrazinamide-Induced Gout: A Comprehensive Review and Future Directions" explored the therapeutic efficacy of Urtica Urens and Colocynthis in gout management, outlining future directions for research in homeopathic interventions.
